CFA Institute Research Challenge hosted by CFA Slovenia

The CFA Institute Research Challenge is a global competition which tests the analytic, valuation, reportwriting, and presentation skills of university students. In this competition, I worked with a team of students to prepare a comprehensive sell-side initiating coverage report on Sava Re Group. Our team then took our findings before a panel of experts from financial institutions in Switzerland, Slovenia, Croatia and defended our recommendation. We achieved a second place in the Local Finals organized by CFA Society Slovenia.
